01

Ozone

The Spanish company Ozone and the renowned pharmaceutical company Super-Diana have been partners for over 40 years. Together, we have developed a state-of-the-art research laboratory in Tarragona, Spain.

About us

We are mainly dealing in powder, liquid and injections. All products are registered and produced in Spain. We produce our raw material mainly from well reputed suppliers registered in European Union Countries, We verify the percentage purity of all ingredients at our laboratory before going into production. We have zero tolerance policy on quality standards.

The Ozone team has substantial experience in manufacturing high-quality veterinary pharmaceuticals as per international standards and in compliance with GMP regulations and procedures.

Our Vision

We believe in sharing our experience, research data, and managerial skills- and that engaging directly with customers to discuss their issues and future needs is the only way to deliver products and services with the most value.

Future Plan

Always ready to invest in the latest technology and techniques, we develop our future plans to reach absolute solutions in accordance with the requirements and guidelines provided by our customers.
